Soursop
Tamarindo
Golden Apple
Pineapple
Passion fruit

Bases with cane sugar

Mamey Base
Ginger Base

Coconut Products

Coconut milk
Coconut cream
Coconut pieces

Fruit Shells

Coconut
Pineapple
Cacao

Company profile:

Esquiz Dominicana is an agro-exporting consortium founded in 1995 in the Dominican Republic. It is composed of four Dominican food processors and Squeeze as their European partner. It came together after participating in technological assistance programs provided by the Centre for the Development of Industry (CDI from the EU) in Brussels with Squeeze as tropical product processing specialist.

As major processors of tropical fruits for the local market the four Dominican companies have developed into industrial suppliers to many American exotic food and beverage firms. The product range includes both finished products and industrial base preparations. For Europe Esquiz Dominicana has limited the number of products they want to offer to better fulfil the needs of the clients.
