- Ginseng Panax C.A. Meyer
- Ginseng Panax Quinquifolium

Roots:

- Dried flakes and powder
- Liquid, syrup and concentrates

Company profile:

Euro Ginseng located in Veghel is the sole producer and supplier of Panax Ginseng roots in Europe. From scientific studies all over the world (Russia, the universities of Alberta and Toronto) it shows that ginseng improves the physical condition, helps to reduce stress and fatigue, it improves the memory and stimulates the immune system and chromosome structure. Furthermore it is an antioxidant and reduces cholesterol; it helps to control blood pressure and diabetes.

Responsible for all these benefits are the ginsenosides, adapting to the needs of the human body. That's why it is often called an adaptogene.

The origin of this exotic plant gains the increasing attention of the food industry. Euro Ginseng is well prepared and equipped for this professional market, being the only certified HACCP and ISO 9001 supplier to guarantee the quality for the food industry. The products are standardized on the level of active ingredients and the safety and traceability are guaranteed by Euro ginseng. Nevertheless the products have a competitive pricing.

Euro Ginseng is suitable for functional foods and has a high potential concept; it is applicable in baked, pasteurised, and/or sterilized products. Euro Ginseng works closely together with their clients to find solutions and to develop opportunities.
