## Company profile:

---

Florida Worldwide Citrus was established in 1985 and is now providing top quality citrus products to the food & beverage industry over the globe. With their favourable position in Bradenton Florida, they have strong ties with the citrus industry in this sunny state. This unique position results to first hand access to the freshest and highly valuable flavour components that the Florida Citrus processors have to offer. The over 50 years of technical experience that Florida specialists offer combined with in-house flavour know-how provides us with flavours that can compete with those from the most renowned flavour companies in the business.

Florida Worldwide operates in two divisions:

**The Flavour division** specializes in Super Freshly Squeezed flavours, produced under stringent governmental guidelines. These products are designed to restore or enhance the flavour profile of juices, beverages and food products.

**The Citrus Oils Trading Division** specializes in sourcing an extensive line citrus processing raw materials of natural essence, terpenes, aromas, NFC juices/concentrates and cold pressed oils.

Florida Worldwide provides their customers not only with high quality products, but also with the appropriate technical assistance to obtain maximum utilization out of their products.
