Company profile:

Selectchemie is an economically strong, independent and internationally active Swiss company. Founded in 1969, Selectchemie has become a renowned partner for raw material sourcing to health, pharmaceutical, human and animal food companies. Today about 60 experienced professionals with commercial and scientific background are located in its headquarters in Zurich, Switzerland. They have associated companies in Italy, France, Germany, Brazil, Turkey, China and India, as well as their own offices in Eastern Europe.

Selectchemie is committed to Total Quality Management which covers all aspects of their work: quality control, training, purchasing, warehousing, logistics, shipping, financing and after sales support. Selectchemie has been certified according to the ISO 9001.2000 norm, GMP and GDP.
